PROFILE

Dynamic and detail-oriented frontend developer with a strong foundation in creating responsive, user-friendly web applications. Experienced in creating multiple applications from concept to product using React.js . Adept at transforming complex design concepts into functional and aesthetically pleasing user interfaces. Passionate about continuous learning and applying best practices in web development to deliver high-quality digital solutions.

WORK EXPERIENCE

Safe Software and Integrated Solution Pvt Ltd (Fintech)

Frontend Developer

November 2023 - Present

- Skilled React.js Developer collaborating with teams to ideate and implement software solutions in the fintech sector. Proficient in designing user interfaces, optimizing performance, and creating seamless user experiences with React.js. Dedicated to ensuring software efficiency through rigorous testing and troubleshooting.

PROJECTS

KSSFCL (Karnataka State Souharda Federal Cooperative Ltd)

- Court Module: Manages court-related data, e-case filing, approval processes, and petition filings
- Training Module: Handles trainee registrations, exam details, class schedules, and related information.
- Magazine Module: Oversees printing operations, book and author details, and subscription management.
- Secretariat Module: Facilitates election processes and manages election results.
- Admin Module: Centralized management of all other modules.

COOPERATIVES FOR ALL (Own Product)

- A platform for cooperative banks to expand their business globally.
- Cooperative banks can register on the website.
- Each bank receives a dedicated dashboard to manage their details and services.
- Customers can explore and access the facilities offered by different banks.
- Includes an admin panel for comprehensive management of all activities and users.

EOFFICE (ARTCO Ltd.)

- Developed a system to automate and streamline the approval process for cooperative banks.
- Implemented workflows for key roles including President, Secretary, Manager, Section Officer, Clerk, and Director.
- Reduced approval times and increased operational efficiency through automated processes.
- Ensured adherence to compliance standards and improved documentation accuracy.
